Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 03 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-11 are rejected under 35 U.S.C. 102(b) as being anticipated by Yuasa et al. (US 4,679,077) as set forth in the previous Office Action dated 07/07/2006.

Response to Arguments

3. Applicant's arguments filed 10/06/2006 have been fully considered but they are not persuasive.

The applicant argued that Yuasa fails to teach recording, extracting, classifying for each of the monitoring modules as recited in claim 1, 6, and 9. Further, Yuasa fails to teach transmitting data representing only the extracted area of the image in a stylized way to the monitoring station if the object is classified as a human alarm object as shown on pages 6-8 of the remarks.

The examiner respectfully disagrees with that applicant. It is submitted that Yuasa teaches a monitoring system for recording (1-1n of fig. 1) by each of the monitoring modules an image of the monitored location associated with the monitoring module (Note each of the cameras is monitoring the particularly area and capturing as recording an image of the monitored

area), extracting (11 of fig. 1, and 20 of fig. 3) in each of the monitoring modules an area (fig. 2, Note changed region within screen or image) in the recorded image that differs from a reference image; extracting (30 of fig. 4) in each of the monitoring modules an object (changed object of fig. 2) from the area (changed region of fig. 2), classifying (32-37 of fig. 4) in each of the monitoring modules the object based on characteristics, such as a characteristic of the type: size, shape and/or movement history, associated with the object (col. 10, line 26-col. 11, line 22), if the object is a human alarm object (col. 8, lines 44-45, Note clips the changed portion (changed object of fig. 2)), transmitting, if the object is classified as a human alarm object (col. 10, lines 34-65, Note list formed models and the changed of object as human are considered as a human alarm object), data representing only the extracted area (changed object of fig. 2 of the image) of the image in a stylized way (27 of fig. 3; col. 10, lines 66-col. 11, line 10; Note the patterns are classed to elements are considered stylized way) to the monitoring station (fig. 5; col. 12, lines 14-34). In view of the discussion above, Yuasa anticipates the claimed invention.

Conclusion

4. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37

Art Unit: 2621

CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
